You have 50 min to complete this exam. Show all work. No calculators, books or other scratch paper are allowed. Simplify your answers as much as possible, but there is no need to evaluate your answers numerically: e.g. an answer of $\pi/\ln 2$ should be left like that. Write your answer to each question in the space following the question (you may continue your answer on the other side of the page). Do not turn over this page until the proctor(s) tell you to.
